

General Policy

1, Weight limitation for Shanghai Terminal (YS & WGQ) is 30500 KGS (incl. tare weight). Meantime, POD restriction shall still be respected (please stick to our detailed weight limitation for all trades that are listed in the following pages).

总重量（货重+箱重）必须低于上海港规定的限重30500KGS，同时必须遵照目的港的限重规定（请严格按照后页中的各航线限重一览表装柜）。

2, Max weight of cargoes allowed to be stuffed in the equipment (payload) is indicated on equipment body.

装载的货重不得超过箱体的最大载荷（以标注在箱体上的为准）。

Here below please find General Payload for MSC Standard Equipment for your reference:

一般我司标准货柜的最大载荷如下：

20'DV -- 21700KGS

Upgraded 20'DV -- 27600KGS

40'DV/HQ -- 26000KGS

If cargo weight for 20' is estimated to exceed 21700KGS, please request to depot staff for upgraded 20'DV. Otherwise shipper will be liable for any responsibility or cost that may arise as consequence of over load and change of equipment.

如果20'货柜所装货物预计要超过21700KGS，请向堆场工作人员要求提取“超重柜”。否则，货主/订舱代理需自行承担由于超重装载或事后换箱产生的额外费用。

3, Weight discrepancy between shipment info (both cargo weight and total weight declared by shipper) shown on terminal website and S/I is NOT allowed to **exceed 1000 KGS**.

港区记录的箱货信息中显示的重量（包括货重与总重，来源于客户申报）与提单要求出具的重量上下差最大不得**超过1000KGS**。

If any violation to either item of above general policy, Shipper / Booking agent will be held full liability for any additional cost/consequence caused (such as re-stow costs, additional terminal handling...etc).

如有违反上述任一项规定，货主、订舱代理必须承担可能产生的所有额外费用（如翻舱费、码头操作费等等）和风险。
